INVESTOR SERVICES

The Municipal Administration of The City of Lublin's Investor Relations Managers will answer all your questions connected with particular sectors or on locating a business in Lublin, assist in arranging a visit, and help you to contact local companies.

The team responsible for our relations with investors comprises Investor Relations Managers specialised in particular sectors who have experience in the commercial market. Their key task is to support the investor at every stage of the process, from exploring market opportunities to locating the business. In their work, they focus on obtaining and providing expert and detailed managerial information, creating profile-oriented investment offers, arranging reference visits, as well as providing technical support for the investment locating and networking process. Investor Relations Managers monitor the market, collect updated information, develop forecasts and create micro-development strategies for particular sectors. They actively build and foster relations by taking part in periodic trade meetings with the representatives of the business world, academic circles, experts and consultants engaged in the investment process.

They also promote the city's investment offer by participating in domestic and international trade events, as well as individual meetings. Moreover, they actively promote the city on business networking sites.
