**SPECIAL ECONOMIC ZONE**

The location of the Lublin Subzone is not accidental. The land occupied by the SEZ is situated in the south-eastern part of the city, in the Witosa Street area, i.e. close to the Lublin by-pass road, the S-17 expressway junction and Lublin Airport. It is the most favourable location for all the entities investing there.

Currently, the Lublin Subzone is almost completely developed. 65 investors have found convenient conditions for development in that area. 51 companies have completed their planned projects, employing a total of 4,088 people (of whom 2,940 hold new jobs, and 1,148 have retained their jobs). The value of the projects completed so far exceeds PLN 1.54 billion.

For more information about the Lublin's business infrastructure, see <https://www.invest-in-lublin.com/locate-lublin>.
